The International Conference on Smart Mobility (IEEE SM) is designated for reporting recent research, development and deployment results in smart mobility systems and services, their challenging problems and their potential applications. IEEE SM is where academics, technologists, OEMs, mobility service providers, city planners and policy makers can network, learn and collaborate with each other. The program of the conference features keynote and invited speeches from top thought-leaders and pioneers in the area of smart mobility, panel discussions, fully refereed papers, workshops, tutorials, industry sessions, Summer School, Women in Mobility (WiM) Symposium, Barrier-free Accessible Mobility Pitch-off Competition, F1Tenth Challenge, and Triple Helix Exhibition.

**Call for Papers**

The International Conference on Smart Mobility 2024 is organized into three tracks representing the smart mobility triad; technology, city planning and governance, with a list of areas in each track.

Authors shall choose a primary and an alternative area when submitting their papers. Other research areas that fall within the three tracks are also welcomed.

**Important Dates**

- **May 31, 2024**: Paper Submission Deadline
- **Jul 1, 2024**: Notification of Acceptance
- **Aug 2, 2024**: Camera-ready paper submission
- **Sep 16-18, 2024**: Conference Dates

**Track 1: Smart Mobility Technologies**
- Software-defined Vehicles
- E-mobility
- Connected Mobility
- Micro-Mobility
- Active, Soft, Zero-impact Mobility
- Inclusive Mobility
- Disruptive Mobility Platforms
- Shared Mobility
- E-Mobility On Demand (MOD)
- Mobility-as-a-Service (MaaS)
- Seamless Integrated Mobility Systems (SIMS)
- Vehicle-as-a-Service (VaaS)
- Location Intelligence
- Blockchain in Smart Mobility
- Vehicle-as-a-Service (VaaS)
- Last-mile Delivery
- Gig Economy and Crowdsourcing
- Passenger Economy

**Track 2: City Planning for Smart Mobility**
- Intelligent Infrastructure
- EV Charging Station Infrastructure
- Vehicle to Grid (V2G)
- Vehicle to Infrastructure (V2I)
- Connectivity
- Transport Corridors
- Emergency Safe Spots and Safe Harbors
- Micro-mobility Stations
- Micro-mobility Highways/freeways
- Digital Road Signage
- Smart Parcel Lockers for Last-mile Delivery
- Smart Parking
- Planning for VTOLs
- Autonomous Urbanism
- Sustainable Urban Mobility Planning
- Smart Mobility within Smart Cities
- Smart Mobility and Sustainable Development

**Track 3: Smart Mobility Governance**
- Open Data Policies
- Safety Verification and Validation
- Standardization
- Cybersecurity Regulation
- Liability
- Privacy and Digital Rights
- ICE Vehicle Phase Out Plans
- Electric Vehicle Government Incentive Programs
- Autonomous Driving Legislative Frameworks
- Aviation Regulations for Urban Air Mobility (UAM)
- Maritime Laws and Regulations for Autonomous Ships
- Legislation to Support Cross-border Mobility
